Orbyte Smart Reorder Assistant

Pitch Deck

Group Name: Pentagrammers

The Core SME Problem

The Problem: Manual Inventory Management

Meet Pak Abu, a small *kedai runcit* owner.

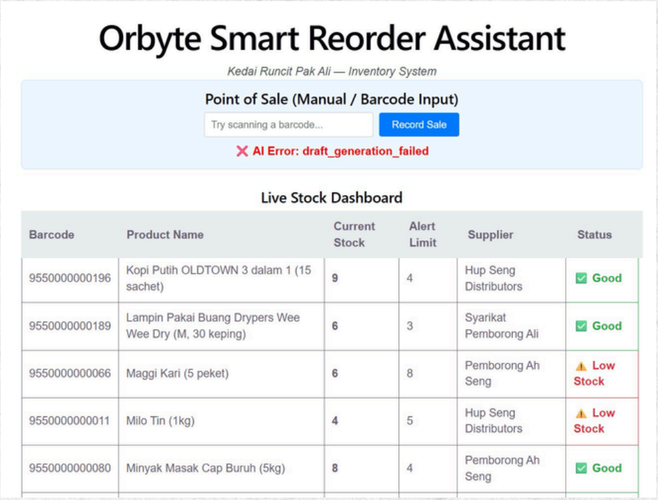

- **Manual Stock Checking**: Checks product stock manually, even late at night.
- **Too Much Busywor**k: Spends time recording low-stock items and checking inventory.
- **Multiple Suppliers**: Needs to contact different suppliers individually through WhatsApp.
- **Human Errors**: May forget to reorder products or order the wrong quantities.
- **Lost Sales**: Products may run out of stock before the next delivery arrives.

Too much time managing stock, not enough time serving customers.

2025

Solution: Orbyte Smart Reorder Assistant

An AI-assisted inventory tool designed for Malaysian kedai runcit owners.

Orbyte Smart Reorder Assistant

9550000000066	Maggi Kari (5 peket)	6	8	Pemborong Ah Seng	⚠️ Low Stock
9550000000011	Milo Tin (1kg)	4	5	Hup Seng Distributors	⚠️ Low Stock
9550000000080	Minyak Masak Cap Buruh (5kg)	8	4	Pemborong Ah Seng	✅ Good

How It Helps

- **Automatic Stock Monitoring:** Checks inventory levels when sales are recorded.
- **Smart Reorder Suggestions:** Identifies products that need restocking.
- **AI-Generated Messages:** Uses Gemini AI to draft WhatsApp replenishment messages.
- **Human Approval:** Allows the owner to review, edit, approve, or reject messages.
- **Activity Tracking:** Records inventory and replenishment activities.

Key Benefit: Less manual work, fewer missed reorders, and more time to serve customers.

Easy to Use. Affordable to Adopt. Human-Controlled.

The 5-Step Automated Journey

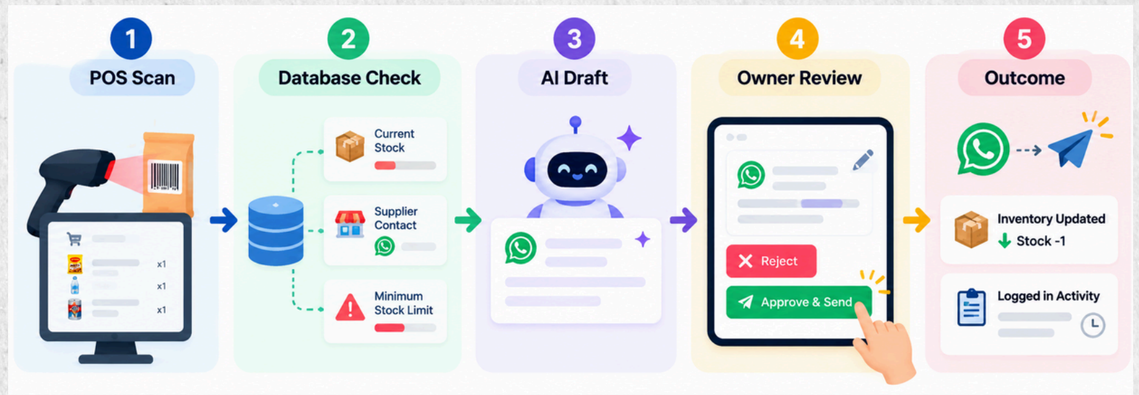

1. **POS Scan**
   Product sold

2. **Database Check**
   Update stock and check threshold

3. **Gemini AI Draft**
   Generate restock message

4. **Owner Approval**
   Review, edit, approve or reject

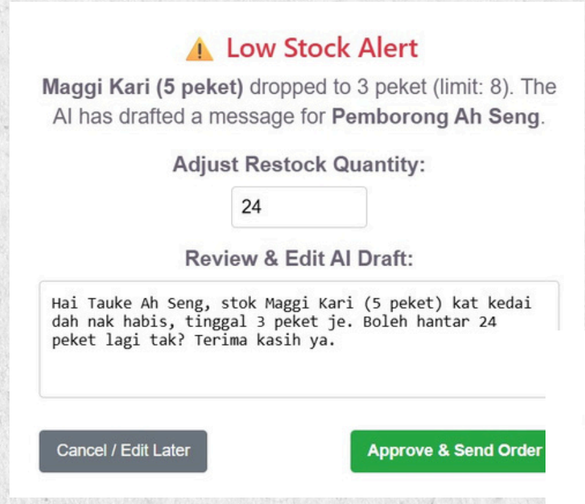

5. **WhatsApp & Activity Log**
   Send message and record action

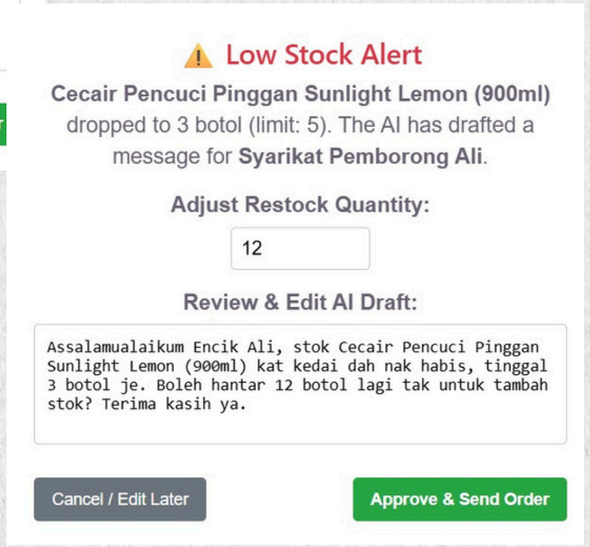

People Stay in Control

People Stay in Control

- **Review** — Check AI-generated messages.
- **Edit** — Modify the message before sending.
- **Approve** — Confirm and send the message.
- **Reject** — Cancel the suggested reorder.

AI assists. The owner decides.

Business Value

- **Save Time** — Reduce manual inventory work
- **Improve Productivity** — Simplify the reordering process
- **Reduce Stockouts** — Identify low-stock products earlier
- **Support Business Growth** — Give owners more time to serve customers

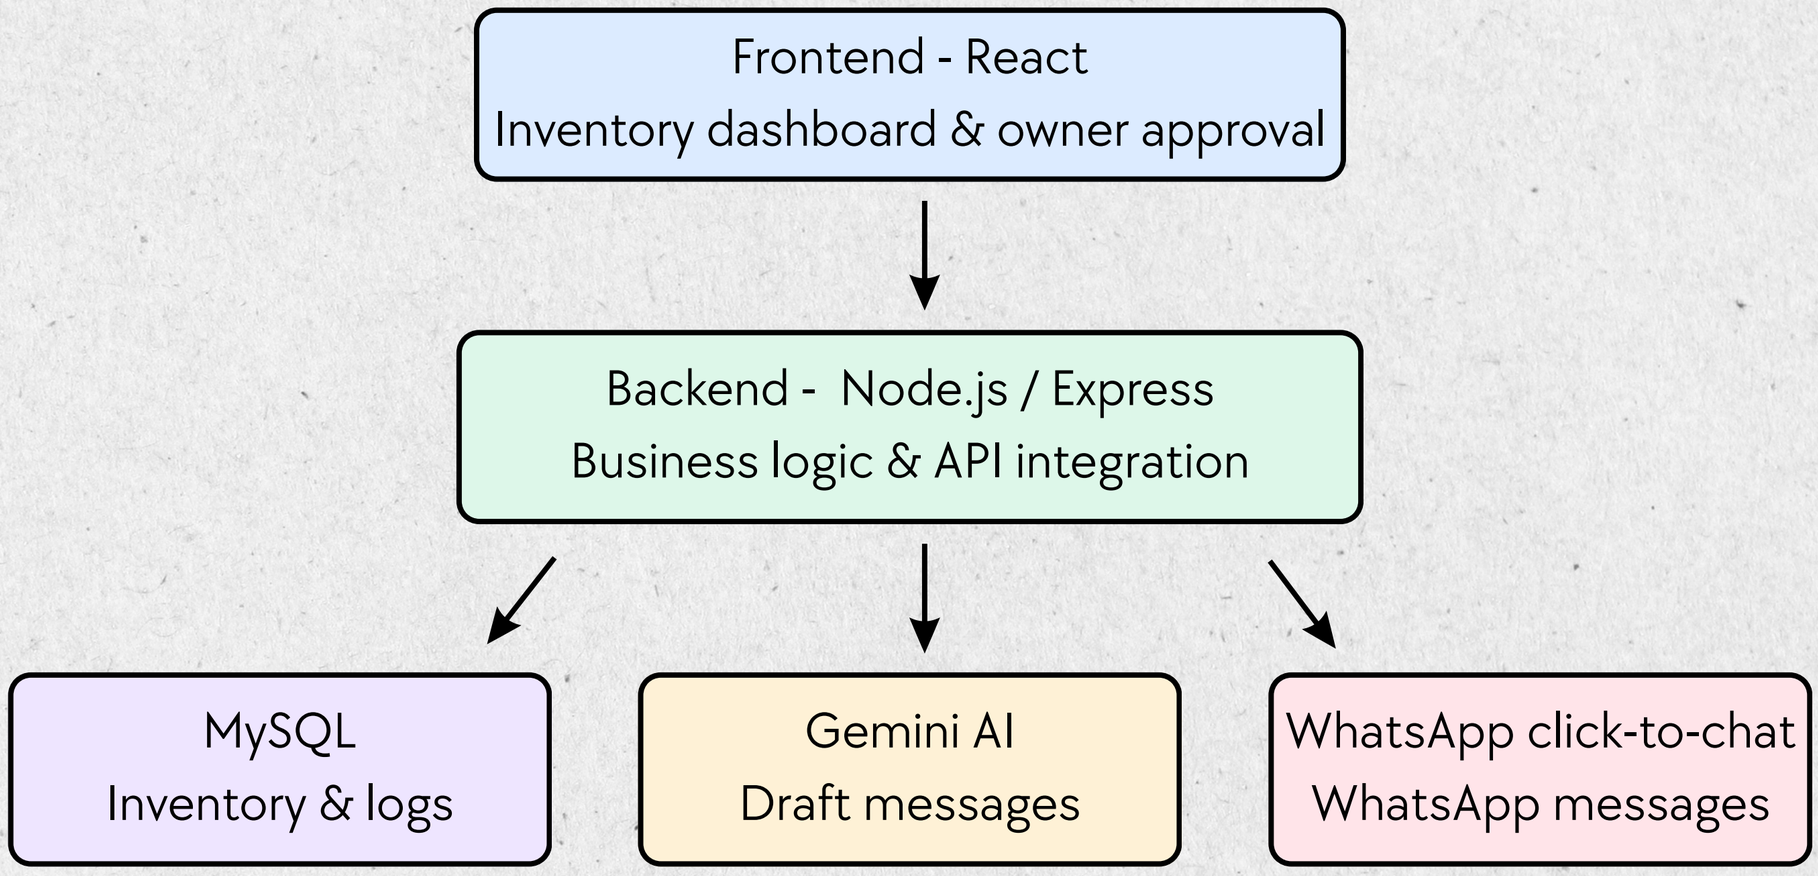

SDG 8.3 – Productivity & SME Growth

Using AI and digital technology to help small businesses improve productivity and support sustainable growth.

Less Busywork. Better Business.
